### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claim could either not be found or was not suggested in the prior art of record. The subject matter not found was a needleless syringe with an upstream and downstream plunger, a reservoir between the plungers, an active principle, a drive means, at least one peripheral injection conduit and a bore with at least one protuberance reducing the cross section relative to the upstream opening of the bore. The syringe works by using the active principle to activate the drive means that moves the upstream plunger, medicament and downstream plunger, wherein the downstream plunger becomes lodged in the bore by the protuberance and permits clearance of the inlets of the peripheral conduit so that the medicament can be injected into the patient.

The independent claims also include other patentable subject matter in combination with the other elements or steps of the claim not mention in the above paragraph.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MATTHEW F. DESANTO whose telephone number is (571)272-4957. The examiner can normally be reached on Monday-Friday 9:30-6:00.
